Earmuff Compatibility

NEW, innovative designed Clearview broad brim hard hat. This new design includes greater protection from the elements including a 60% increase in brim area and 30% more protection, compared to current broad brim designs and 300% more brim area than a standard peak cap. The new Clearview Broad Brim hard hat has a unique removable access tab to allow for cap attachable helmet ear muffs. These tabs can be parked in the rear of the hard hat to prevent loss.

Features & Benefits

- Type 2 Polycarbonate, high temperature hard hat
- The improved modern design of the attachment slot allows the Clearview Broadbrim helmet to accept most general 25mm and 30mm attachments that are in the market place (cap attachable earmuffs visor holder, etc).
- Adjustable 6 point terylene harness or poly cradle.
- Rain guard with reinforced peak.
- Miners Helmet available, with metal or plastic lamp bracket.
- See through peak allows the wearer to look upwards without the need to tilt the head back
- Clearview stops the need for the wearer to reverse the head harness in the helmet
